PREFACE.

This volume, the eighth of our series of extant Buckinghamshire Registers, contains the Marriage Registers of Iver and Chesham, which have been transcribed by Mr. Thomas Gurney. As regards Chesham, it completes the marriage entries of the volume of Chesham Registers printed in 1904 by Mr. Garrett-Pegge.

1379052

It has not been thought needful to print the entries *verbatim*. They are reduced to a common form, and the following contractions have been freely used:—

w. = widower *or* widow.
s. = spinster, single woman, *or* son.
b. = bachelor *or* single man.
d. = daughter.
surr. = surrogate.
p. = of the parish of.
co. = in the county of.
dioc. = in the diocese of.
lic. = marriage licence.
publ. = publication of intended marriage.

It may be well to remind the reader that these printed abstracts of the registers are not legal "evidence." Certified extracts must still be obtained when evidence of a marriage is required for proving a pedigree in a court of law or when registering it at Heralds' College. For such certificates, application must be made to the local clergy.

It is a matter for regret that this series does not receive a larger measure of support in this county. Its production involves much labour and expense, and the only encouragement accruing to those responsible for it is the knowledge that it fulfils a very important part in the preservation of our national records. The volumes are of permanent value and cannot be superseded. To the genealogist, the Marriages are by far the most valuable part of a Parish Register, whilst forming only about one-ninth of the total number of entries.

The advantage of an index is fully appreciated by the editors, but the most urgent work at the moment is that of printing as many Registers as possible, and thereby saving their contents, in the only effectual way, from all risk of loss, whether by fire, theft, decay, or accident. It will be more advantageous to have a general index for the county rather than a number of separate ones for the various parishes.

Registers of the following forty-five Buckinghamshire parishes have appeared in previous volumes of this series :—

Marriages at Iver,

1605 to 1812.

Note.—The area of this parish is about 5,500 acres, thus being one of the most extensive in the county.

Vol. I. consists now of 38 parchment leaves, and at the end are the remains of two more. It measures 11in. by 8in., and the covers are wanting. Contains Baptisms 1605 to 1635; Marriages and Burials 1605 to 1634. Handwriting fairly clear, except in the earlier baptisms.

Vol. II. consists of 10 parchment leaves and the covers are wanting. Measures 14in. by 10in. Handwriting fairly clear. Baptisms 1635 to 1653 and also the year 1659; Marriages 1635 to 1652, 1659 to 1683, and 1688 to 1701. Robt. Loaton was elected clerk in 1630; Thos. Britteridge and Francis Sandford were churchwardens in 1635.

Vol. III. consists of 18 parchment leaves, bound in stiffened vellum; six leaves in the middle have been cut out, but they may have been blank. Somewhat perished in places. Measures 14in. by 6½in. Contains Marriages and Publications 1653 to 1658 and 1671 to 1672; Births 1653 to 1659 and 1671 to 1672; Burials 1654 to 1659, 1671 to 1672, and the year 1678. Chas. Bagley, gent., was elected "Parish Register" 19 Sep., 1653, but he absented himself several months, and his father, Henry Bagley, who wrote a fairer hand than any ordinary man in the parish, was appointed in his place.

Vol. IV. consists of 20 paper leaves, bound in vellum; in very good condition. Contains Baptisms and Marriages 1701 to 1730. Measures 14in. by 9½in. It bears the number 5 on the cover. Thos. Wiggett and Wm. Littleboy were churchwardens in 1701. This register is probably a transcript.

Vol. V. consists of parchment leaves, bound in rough calf. Contains Baptisms and Burials 1731 to 1784; Marriages 1731 to 1754. Measures 17in. by 11in. Geo. Tash and Rich. Stanbrough were churchwardens in 1729. Eleven leaves have been cut out of the book, but they were probably blank ones.

Vol. VI. consists of printed paper forms for Banns on the left and Marriages on the right-hand page, 1754 to 1798; rough calf or sheepskin binding. Measures 15in. by 10in.

Vol. VII. consists of printed paper forms for Banns in the first half of the book, Marriages in the latter half, 1799 to 1812; rough calf binding.

These extracts have been made by Mr. Thos. Gurney, and are now printed under his supervision by leave of Rev. Walter E. Gilliat, vicar of Iver.

Marriages at Chesham,

1637 to 1837.

NOTE.—This name appears in Domesday as "Cestreham," and has subsequently been spelt in a variety of ways. In the winter months the curfew bell is still rung from the church tower. In 1861 the parish contained about 12,000 acres; probably the largest in the county and one of the largest in the South of England as regards area. Since then other parishes, such as Ashley Green, have been formed out of it. The hamlets are: Ashridge, Bellingdon, Botley, Chartridge, Waterside, and Hundridge. The first volume of the Chesham Register, covering the period 1538 to 1636, was transcribed by Mr. J. W. Garrett-Pegge, and appeared as a separate publication in 1904; it is therefore unnecessary to include the entries for that period in this series.

Vol. II.—Baptisms 1637 to 1720; Burials 1637 to 1695 and 1724 to 1730; Marriages 1637 to 1713, with large gaps preceding and during the Commonwealth. Parchment leaves, cardboard covers backed with calf; measures 13½ins. by 9½ins. In good condition. There are many references to Quakers and Anabaptists. Although for the purpose of this transcript the entries have been arranged chronologically, yet in the Register they appear in the following confused order:—1697 to 1708; 1637 to 1638; 1708 to 1713; 1653 to 1659; 1686 to 1695; 1662 to 1686; 1695 to 1697. In 1729 there were no less than 181 burials, many of the persons dying of "pleuritick fevers."

Vol. III.—Burials only, 1678 to 1708. Paper leaves, cardboard covers backed with sheepskin; measures 14½ins. by 9½ins.

Vol. IV.—Births and Baptisms 1645 to 1730; Burials 1708 to 1724; Marriages 1713 to 1730. Parchment leaves, cardboard covers; measures 13½ins. by 9½ins.

Vol. V.—Baptisms, Marriages, and Burials 1730 to 1742; copies of deeds, and a list of vicars from 1256 to the present time. A similar book to the preceding one. Measures 13ins. by 8ins.

Vol. VI.—Baptisms and Burials 1743 to 1760; Marriages 1743 to 1754; and copies of deeds. A similar book to the preceding one, but it measures 15ins. by 10½ins.

Vol. VII.—Marriages 1754 to 1780. A large book of printed paper forms with similar binding to the preceding one; measures 17ins. by 10½ins. Contains something like 760 entries, about half of the signatories being marksmen.

Vol. VIII.—Marriages 1780 to 1812. Printed paper forms, bound in sheepskin; measures 14½ins. by 10ins.

Vol. IX.—Marriages 1813 to 1831. Printed paper forms, vellum covers.

Vol. X.—Marriages 1831 to 1837. Printed parchment forms, vellum covers.

These extracts have been made by Mr. Thomas Gurney, of North Kensington, and are now printed under his supervision by leave of Rev. C. E. Boultbee, Vicar of Chesham, and Surrogate.

* The Register from 1708 to 1713 has marginal notes with the months and years from 1639 to 1653. Probably the explanation is that, although pages were allocated to the earlier period, the records were so seldom forthcoming that the intervening spaces were used for entries of the later period.
